

BARWON SOCCER ACADEMY

- ◆ We are offering private soccer training focused 100% on technique on every skill required in the game.
- ◆ The big difference between personal soccer training sessions and regular weekly training is:
 - Personalised coaching, and
 - Personalised drills relevant to the players positions, which a coach would find difficult / time consuming to do with a full squad of players, resulting in the player not achieving their full potential.
- ◆ Whether you are just starting out or have played all your life, all training sessions are specifically designed for the players attending, so there will always be room to improve.
- ◆ All ages welcome.
